

Moose Legion
DIRECTOR'S KEY CLUB
Achievement Earns Extra Project Discount

Director's Key Club

The "Director's Key Club is designed to recognize the individuals who serve on the jurisdiction Board of Directors. Once each member of the board has sponsored at least two accepted Moose Legion applications during the fiscal year, that group of directors then earns the "Key Club".

Once Moose International obtains a report of all seven directors having achieved this sponsorship level, a letter and set of specially designed lapel pins are sent for presentation. We ask that the Ambassador or Area Manager make the presentation of the "key" pins at the next regular celebration or at another suitable occasion (such as an association meeting).

What's New for 2013-2014?
(to be earned in 2012-2013)

Jurisdictions who achieve the Director's Key Club during the 2012-2013 fiscal year will earn an additional discount on the main annual Moose Legion project for the following year. This will be an opportunity for the leadership of each jurisdiction to save their fraternal unit 5% on next year's project.

That is right - an extra five percent (5%) off the annual project can be earned this year – for next year. We typically offer a staggered 10% and 20% "early payment" discount. This will be above and beyond those offers.

This discount is extra recognition to reward those Boards of Directors who lead the membership production effort in their jurisdiction by example. This extra 5% will be earned by those full boards who each sponsor at least two (2) reported Moose Legion applications during the prior fiscal year.

Thank you to those jurisdiction boards who lead by example, when it comes to membership production. We are happy to recognize your efforts.
