

IT'S NOT JUST A BEAUTY SHOP!

For decades, the Women of the Moose have provided funds for the beauty shops located on our Moosehaven Campus. During the renovation of the of the Paul P. Schmitz Health Center, a brand new Women's Club and Beauty Shop and Men's Club and Barbershop were built in the 'Main Street' area of the Life Care Center.

In July of 2000 an additional Beauty Shop and Barbershop opened in the New York Exercise Center. It is centrally located for our Campus residents.

Our Moosehaven women look forward to their regular visits to the beauty shop and taking advantage of the shampoo and sets, perms, hair coloring, conditioners, oil treatments and manicures that are offered to them. We can all testify that a trip to the beauty shop really brightens our day and uplifts our spirits.

Through the funds raised for the Beauty Shops, the Women of the Moose also fund the Barbershops. Our gentlemen on the Moosehaven Campus also enjoy going for haircuts and yes, even some occasional special treatments. They like to look their best so they can feel their best.

Of course, we cannot forget about our residents who are physically unable to visit the beauty or barber shop. Our beauticians and barbers will visit our residents' bedside for a cut or perm to make sure that they too may look and feel their very best with clean and well groomed hair.

The operation of both of the beauty and barber shops is costly. Towels, rollers, combs, brushes, curling irons and blow dryers need to be replaced on a regular basis. Supplies are constantly restocked. The Women of the Moose also provide the funds necessary for the operators' salaries. With your generous support of the Moosehaven Beauty Shop on Sunday, we will be able to continue this valuable program to enable our seniors to look and feel their very best.

Thank you for your contributions toward this project so that we are able to pamper our seniors on a regular basis in both of these facilities.
