Nashville Here We Come

Housing and Pre-registration information is now available for our 2010 International Conference in Nashville, TN - *Music City, U.S.A.* The new micro site at www.moose2010nashville.org will be updated regularly as new information is available.

Returning to the Nashville Conference

Beginning in 2010, the **Academy of Friendship Conferral** will again become a part of our International Conference. All Academy of Friendship candidates who are not able to attend the Midyear Conference in their respective State, Region or Province to receive their degree may now do so during the International Conference in Nashville.

Please plan to arrive on Thursday, July 1 as the Breakfast meeting and Conferral is on Friday, July 2, 2010.

Katherine Smith Center

We are pleased to announce Mooseheart Service Chapter #3001 is the first Chapter to complete their entire commitment to the Katherine Smith Center for Special Needs. Thank you to all of the co-workers of Mooseheart Service Chapter.

Email Response

Many Chapters are taking advantage of the ability to email the Forms 166 to our Chapter Records Department however, once they "send" the email, they are contacting our office to see if we have received the email.

Please understand that our system automatically generates an email response upon receipt of the email. Please do not call once you "send" the email as it may take several hours for the delivery receipt to arrive in your inbox.

Online Banking

With the increased use of computers and technology come tighter restrictions on our Chapters. Please understand that it is not in order for a Chapter Officer to do **any** online banking, other than possibly securing a bank statement or looking at banking information.

Chapter credit cards may be used for the purpose of helping a member pay dues or to secure an Internet Service Provider however, no financial transfers or transactions in to or out of the Chapter checking account via electronic means are allowed.

Email Surprises

Due to the new "Welcome" emails as well as the birthday emails sent to all members for whom we have a birth date and email address, please secure the email address and birth date for your new members and make certain that you are maintaining the addresses currently on file in your LCL.Net computer. This will help to make our job here at Moose International much easier.

Thank you for your help.

"There is a time to let things happen and a time to make things happen."
