

Changes to Ritual Competition

Effective August 2011

All measurements between a competitor and stationary object will be taken from the front of the shoe (toes) to the closest part of stationary object. This is a change from "the closest body part".

Due to the above change - final position at the Altar is 2', unless otherwise stated. This will impact the Chaplain (Opening and Closing Prayers).

Raps have been added throughout the ceremony.

Pauses for action have been added where needed.
