Canadian Postal Strike Causes Possible Delays in Mail Delivery

Because of escalating strikes with the Canadian Union of Postal Workers (CUPW), backlogs and delays currently exist with mail service there. Because of this, it is possible that lodges and chapters may experience delays with any materials being sent to Canada, including the *Moose* magazine, membership dues or membership cards.

We will keep you posted on any further developments via Official Communications and/or other Moose International communications (social media/website) and remain hopeful that the strike will be resolved soon.
