

Official Communication for January 14, 2022

SmarterMail Upgrade

The mooseunits.org SmarterMail upgrade will take place on January 17, 2022. It can take up to 24-48 hours for the changed DNS (Domain Name System) information to be updated across the entire web. While this update is happening you will still be accessing your old mailbox. Once the updated change has been completed, when you log in, you will be in your new mailbox on the new mail system.

The first three pages of the attached document will assist you in logging in and out of the new mail system, as well as how to access the old mail system after the upgrade. The remaining pages will help you navigate the new interface.
